

HeatGun

Heatshrink Tube

This braided fabric-fibre hose was primarily developed to ensure high mechanical abrasion protection for components such as rubber hoses, plastic pipes and cable bundles. The

hose is also ideally suited for rattling protection (for noise damping). Other product features:

- Easy to install
- Very flexible

Shrinkage Rate: 2:1
Material: Polyester
Temperature range: -40 to +125 °C
Heat shrink tubing length variation: -10 %
Wall Thickness: 1 mm

Packing Type: Bag
Diameter 1/2: 30 / 15 mm
Inspection Tag: TL 52668
 FMVSS 3022
 ISO 16750-5
