

## PRODUCT IDENTIFICATION

Renault 25 All types

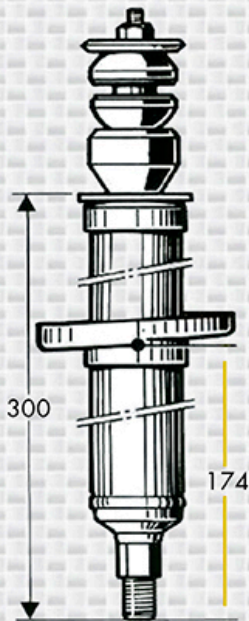

FI001EU

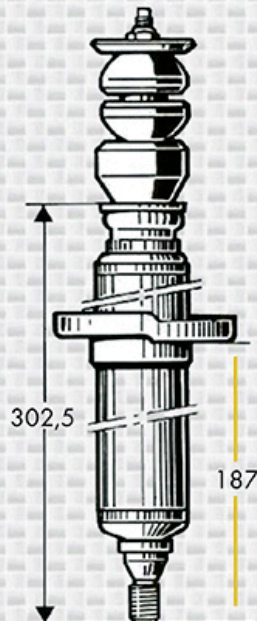

There are 2 replacements possible, depending on the original assemblies (hydraulic or gas).

For maximum comfort and road holding, it is essential the Monroe® replacement matches the original assembly. Check the height of the spring seat.

**REFLEX  
E 5604**  
gas shock absorber

**ORIGINAL  
R 6521**  
hydraulic shock absorber

The piston rod of a gas pressurized shock absorber returns automatically to its upper position.
