Cougar, Galaxy, Mondeo, X-Type, Alhambra, Sharan

CLTB 0010

MODIFICATION TO FORD CSC BCS119

Concerns

The vehicles listed above were originally fitted with a Concentric Slave Cylinder (CSC) designed and manufactured by FTE (1) and incorporating a male push type hose connector. An alternative unit manufactured by LUK (2) with a female type hose connector is also suitable for fitment by using the the adaptor pipe (a) supplied inside the carton.

Method

When fitting the new CSC please ensure that the gearbox location mounting face is clean and free from any damage.

IMPORTANT - please ensure that the o-ring supplied (b) is fitted as shown.
