

How to detach the blade

- 1 Stand the wiper arm.

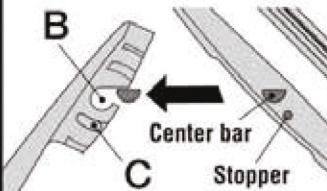

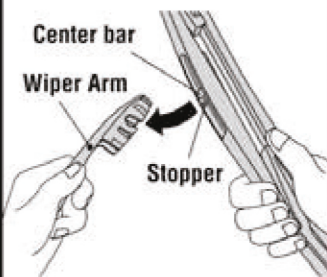

- 2 Rotate the blade and make proper angle to detach the blade.

**Do not detach it forcibly!*

How to attach the blade

- 1 Set the blade so that Stopper is located in the bottom of Center bar.

- 2 Rotate the blade and make proper angle so that Center bar can go into 'B' smoothly, at the same time, fit Stopper into Groove, 'C'.

- 3 After inserting the blade to the depths,
 1. Rotate the blade as shown in the instruction.
 2. Check if the blade is fixed with wiper arm correctly.
