## NISSAN, RENAULT & OPEL/VAUXHALL (ZD30)

### TCK43 & TCK43L

The Nissan ZD30 engine is a family of 3.0 diesel, in-line four-cylinder engines. It was launched in 1999 and comes as either turbo or non-turbo. Latest generation engines are common rail. FAI offer two chain kits for this engine with significant differences in components dependent on application and year model.

**Please check before installation to ensure correct fitment and function.**
