

MATERIAL SPECIFICATION

TEXTAR

Textar T699

Main Vehicle Application

Bova	Iveco	Neoplan
DAF	Leyland	Renault Truck (RVI)
ERF	MAN	Scania
Ford	Mercedes	Volvo

Main Brake Manufacturer/Type

S-Cam brake

Friction Material Release

This aftermarket material has been specifically designed for s-cam foundation brakes.

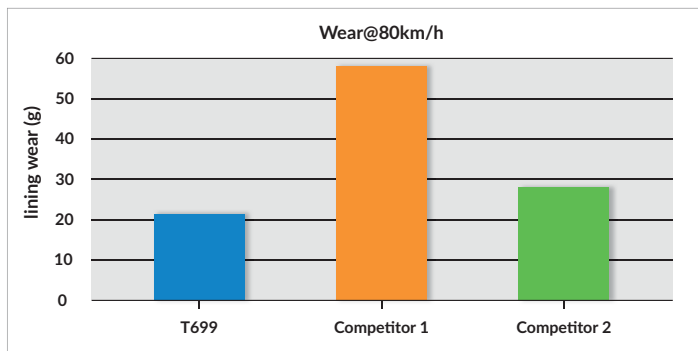

Features and benefits

T699 is a fully moulded asbestos-free lining with a medium/high coefficient, developed for s-cam foundation brakes.

General Description

Textar T699 was developed for the aftermarket to be used in truck and bus S-cam foundation brakes. This material has a good performance to price ratio and is considered to be one of the best materials in the budget range.

This material has been developed over the years and meets stringent standards required by the European ECE R-90 legislation. T699 exhibits a medium to high level of friction and in normal operating conditions displays an excellent pad wear rate.
